“K” LINE Group To Exhibit at Wind Expo 2026

The “K” LINE Group will participate in Wind Expo 2026 to be held from March 17th to March 19th at Tokyo Big Sight.

“K” LINE, KAWASAKI KINKAI KISEN KAISHA, LTD., “K” Line Wind Service, Ltd., “K” LINE LOGISTICS, LTD. and Daito Corporation will present their activities using ship models and movies at the “K” LINE Group’s booth. Everyone is welcome to visit the booth and attend the seminar. Please visit the Group!

“K” LINE Group has acquired experience and established a track record in offshore wind power projects, including marine geotechnical surveys using the Japanese-flagged geotechnical survey vessel EK HAYATE, offshore support vessel services for construction, large-ocean-going tugboats, and the forwarding of wind turbine components.

We will continue to collaborate with knowledgeable partners both domestically and internationally, pursuing solutions to support Japan's offshore wind power supply chain while preserving both international standards and the Japanese way.
